**Attachments:** DRAFT-RedHill-CSM-GWModel-Comments-2\_8\_2018\_Tonkin.pptx

Please find attached my draft presentation as it currently stands. I don't anticipate major changes, but welcome any thoughts. A quick question and a comment:

1. I will spend a little time editing down the narratives/text before the meeting - do you want to provide these to the attendees in advance of the meeting, or are they primarily just to facilitate the discussion? That tells me how much time I have to edit a bit more!
2. There are lots of slides, but many of them (e.g., the 3D visualization) are in essence page-though "eye candy" illustration of the site data we plotted, that will pass quickly

Hi Lyndsey,

I've added a few bullets to what Matt had put together. Take or leave as you wish. Obviously staying at a high-level on these thoughts, many details beneath those.

Best regards.

Hi All,

Fenix and I agreed on this draft guidance/agenda for Thursday's meeting. Please provide me with your comments (if any) by EOD Tuesday so I can combine them. Names are generally assigned for the key discussion topics, loosely based on area of expertise. As you'll see, we are attempting to cover a lot of content so please prepare 3-5 concise bullets to support concerns under each topic for which you are 'assigned'.

Bob W. this is the draft you already made some changes to.

Gary, I know you may have a conflict for the early part of the meeting, so I put the LNAPL discussion towards the end of the meeting in hopes of matching your availability. Please let me know if you are unable to make the timing work.

Thanks!
